QUENTIN VILLET

quentinxvillet@gmail.com | GitHub | LinkedIn | Portfolio | Paris, FR | +33 06 25 59 10 39

Final-year Master's student at **ESSEC Business School & CentraleSupélec** focusing on **Machine Learning** and **Business Analytics**.

EXPERIENCE

Danone **06/2026 – 09/2026**
Data Scientist – Internship *Paris, FR*
- Built a **GDPR-compliant** image sanitization pipeline on **Databricks** covering PII/face/license plate detection and risk-scored reporting.
- Evaluated and benchmarked 3+ open-source OCR/CV engines across precision, recall, and runtime to select the top-performing model for production.
- Captioned and extracted structured entities (products, brands, context) from **10,000+** consumer images into **JSON** for business teams, using open-source vision-language models optimized on **GPU** infrastructure; presented results to **200+** stakeholders across the Global SiA team.

Artefact **03/2025 – 09/2025**
Data Consultant – Internship *Paris, FR*
- Developed a Python chatbot using **GCP** and **Dialogflow** to handle 60+ user query types.
- Built a **BigQuery** data catalog to harmonize 2,000+ variables across distributed ERP systems.
- Executed complex SQL and managed sandboxes for a major enterprise **data migration** program.

Clikalia **06/2023 – 08/2023**
Portfolio Management – Internship *Mexico City, MX*
- Integrated credit workflows into HubSpot, improving operational efficiency and documentation.
- Managed an inventory of 200+ properties and led cross-functional strategic meetings.
- Audited marketing and IT KPIs to resolve critical operational bottlenecks.

EDUCATION

CentraleSupélec & ESSEC **09/2025 – 06/2027**
M.Sc. Data Science and Business Analytics *Paris, FR*
- **Relevant Coursework:** Machine Learning, Optimization, Statistics, Linear Algebra, C++, Databases.

Le Wagon **10/2024 – 12/2024**
Data Science & AI Intensive Bootcamp *London, UK*
- Final project: Deployment of a scalable machine learning model in a team of four.

Bocconi University **09/2021 – 06/2024**
B.Sc. Economics & International Management *Milan, IT*
- **Coursework:** Statistics, Data Analysis, Corporate Finance, International Macro and Microeconomics.
- **Electives:** Advanced data-driven analysis using **Stata**.
- Thesis: "From Bocconi to Startup Success: Exploring Influential Factors."

DATA SCIENCE PROJECTS

EY AI & Data Challenge: Global Water Sustainability Model
- Developed a **predictive ML model** to forecast key water quality parameters across 200+ river locations.
- Engineered features from **unstructured environmental datasets** (Landsat, TerraClimate) to optimize performance.

HarmonIQ: Unsupervised Recommendation Engine (Spotify API)
- Built a playlist recommendation generator using PCA & K-means trained on **1M+ Spotify tracks**.
- Built an interactive web app using **Streamlit** and containerized the system via **FastAPI**, **Docker**, and **GCP**.

TECHNICAL SKILLS

Languages: Python (NumPy, Pandas, Sklearn, TensorFlow, PyTorch), SQL (Postgres), R, Stata, C++.
ML/Math/CV: Deep Learning, Computer Vision (OCR, Vision-Language Models, Blurring...), Optimization, Supervised/Unsupervised Learning.
Tools: Databricks, FastAPI, GCP, BigQuery, Docker, Streamlit, Git, Jupyter Notebook, Claude Code.

LANGUAGES

French (Native) | **English** (Native) | **Spanish** (Business) | **Chinese** (B1) | **Italian** (A2)

OTHER INFORMATION

- **Volunteering:** Tutored girls aged 8–18; raised over 300,000 HKD for disadvantaged children.
- **Leadership:** Founded a delivery network for Eric Kayser; maintained weekly profit margins of 10,000+ HKD.
- **Sports:** HK National Team Rugby; Football player for FC Ravizza (Amateur, Italy).
